MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : CIA Participation in US Overseas Internal
Defense Objectives

1. There is being submitted to you by DDP a draft paper describing CIA participation in US Overseas Internal Defense objectives. I concur in this paper to the extent that it affects the activities of the DD/I portion of the Agency. I would like to call specifically to your attention, however, the fact that DD/I involvement in the production of intelligence in support of operations, to the extent called for in this paper, is a radically new role for the DD/I area. If we are to play the part in the coordination and production of intelligence in support of counter insurgency operations that is implied in this paper, it is bound to have a serious impact on the current organization and procedures of the DD/I area and may well involve a need for additional resources not available to us at the present time.

RAY S. CLINE
Deputy Director (Intelligence)
